

BROOKVIEW
MONTESSORI SCHOOL

Pest Advisory/Pesticide Schedule to Parents

This schedule is valid for Summer 2025 & Academic School Year of 2025-26

As part of Brookview Montessori School’s Pest Management Program, pesticides are occasionally applied as a preventative health hazard, and to maintain compliancy with the Bureau of Children and Adult Licensing. As parents of a child attending Brookview, you have the right to be informed of the program. You will be notified within 48 hours through email or notes sent home in backpacks, if any of the scheduled dates change. This advisory/schedule is posted for public viewing in the front foyer of the building. In addition, the schedule will be sent to you again during the month of September, via email. This advisory will include a list of all pesticide companies that are used by Brookview Montessori School. If you have any concerns or questions about pesticides, you may contact the National Pesticide Information Center at 800-858-7378 or visit their website at www.npic.orst.edu. Additional information about pesticides may be obtained by contacting the National Poison Control Center at 800-222-1212.
